

## How to secure your Nonprofit organisation with **Microsoft 365 & SmartEncrypt**

Microsoft 365 Business Premium is the quintessential productivity platform for small to medium sized Nonprofits. It combines an enterprise level collaboration and communication solution, universally renowned productivity applications and the significant security features that make the Microsoft 365 platform, a must have.

### Why SmartEncrypt?

#### **Affordable Security**

Cost effective data security versus the costs and damages from unprotected file exposure and lost IP.

#### **File Level Protection**

File encryption is the last line of defence – encrypted content cannot be decrypted without the encryption key.

#### **Protection Certainty**

Always on persistent encryption regardless of data movement; files are not accessible even if stolen.

#### **Secure Remote Working**

Beyond-the-firewall controls enabling use of BYOD computers, cloud storage applications and USBs.

#### **Seamless Experience**

'Invisible' and seamless encryption/decryption process with no impact on user workflows.
