

Leverage the Microsoft Azure Grant for Nonprofits utilising Nerdio Manager for MSPs

Nerdio Manager for MSP is an Azure managed application that empowers Managed Service Providers to build successful Windows Virtual Desktop (WVD) practices. Automatically provision a complete WVD environment in under an hour, connect to an existing deployment in minutes, manage all your clients in a single pane of glass admin portal, and optimize their WVD environment with powerful autoscaling.

Exclusive Offer for MSPs serving Nonprofits

Nerdio is providing benefits to MSPs serving Nonprofit organisations, these include:

30% off the cost of Nerdio Manager for MSP

2 free customer onboardings with Nerdio Go Live Engineers
